Instruction Manual v1.4 – 09/2017

Stellavolta KIDS 5-Pole Teepee

TP5P-BKS Jet Black Stripe

TP5P-BLS Navy Blue Stripe

Recommended for ages 3 and up. Adult assembly required. Not intended for high winds, wet weather, or camping.

Contents

- 100% Cotton 8.5 oz Canvas Teepee
- 5 Wood pole halves with eyelet for rope
- 5 Wood pole halves without eyelet
- 5 Plastic pole connectors

Quick Assembly

1. Attach the plastic pole connector to a pole half with an eyelet. You may need to twist the pole into the connector.
2. On the other side of the plastic pole connector, attach a pole half without an eyelet. Again, you may need to twist.

3. Insert the side of the completed wood pole with the eyelet into the teepee canvas sleeves from the bottom of the teepee going toward the top. Repeat this step for all 5 poles. Once completed, the eyelets and ropes should all be at the top of the teepee.

4. Stand the teepee up and spread the poles out. This may best be performed with two people on each end grabbing two poles in each hand and then adjusting the 5th pole as necessary. (This step could optionally be performed after step 6. In other words, if you prefer, you could perform Steps 5 & 6 first, then stand the teepee up and spread the poles out, if you find that easier.)

5. There are 4 short ropes and 1 long rope. Insert a short rope through a pole eyelet and again through an adjacent pole eyelet, then wrap around these two poles and form a knot. Insert a second short rope into one of the previously used pole eyelets and again through an adjacent pole eyelet that has not been used and form a knot. Repeat this process for all 4 short ropes.
6. Insert the long rope once through as many pole eyelets as possible and then wrap around several times before forming a knot. Keep in mind, that the more ropes that have gone through an eyelet, the more challenging it will be to run an additional rope through that eyelet.

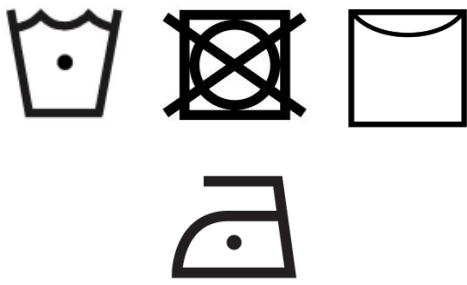

7. You can decorate or paint your canvas teepee if you wish. Choose non-toxic paints that will not run if washed.
8. There are two Velcro snaps to keep the door flaps closed; one in the middle and another at the bottom. There are two ties on each side to keep the door flaps

open. Roll each door flap open and tie off to keep open.

Care

When dirty, remove poles and wash canvas teepee in cold water on *delicate* setting. Hang dry on something that won't bleed into the teepee. You can iron or steam iron on low heat to remove wrinkles. The heat setting depends on your iron. Refer to your iron's instruction manual on its proper use.
